[C8] D. GEORGES, The use of observability and controllability gramians or functions for optimal sensor and actuator location in finite-dimensional systems. 34th IEEE Conference on Decision and Control (CDC'95), december 1995, New Orleans, (USA).

[C32] M.-L. CHEN, D. GEORGES, Nonlinear optimal control of an open-channel hydraulic system based on an implicit finite-dimensional discrete model, *IFAC CSD 2000*, Bratislava (Slovak
Republic), June 2000.

[C46] A. ROOSTA, D. GEORGES, N. HADJ-SAID, Nonlinear control for power systems based on
a backstepping method, 40th IEEE Conference on Decision and Control CDC01, Orlando, Florida
(USA), december 2001.

[C47] K. MEKKI, N. HADJ-SAID, D. GEORGES, R. FEUILLET, LMI versus nonlinear
techniques for the design of FACTS controllers, IEEE Winter Power Meeting, New York, USA, 27-
31 january 2002.

measurements for power system oscillations and FACTS interactions, 14th Power System

instruments for control and diagnosis: An application to a water distribution system, IEEE
Instrumentation and Measurement Technology Conference (IMTC 2002), Anchorage, Alaska, USA,
May 2002.

[C50] D. GEORGES, J.F. DULHOSTE, G. BESANÇON, A note on feedback linearizing control
for open-channel hydraulic systems, IEEE Conference on Control Applications, CCA/CACSD2002,
Glasgow, Scotland, september 2002.

[C51] B. MARX, D. KOENIG, D. GEORGES, Optimal sensor/actuator location for descriptor
systems using Lyapunov-like equations, 40th IEEE Conference on Decision and Control (CDC'02),
Las Vegas, Nevada, USA, december 2002.

[C52] A.R. ROOSTA, D. GEORGES, Backstepping Method in Nonlinear Control of Power

[C53] A.R. ROOSTA, D. GEORGES, N. HADJ-SAID, Decentralized nonlinear controller design
for multimachine power systems via backstepping, European Control Conference 03, Cambridge,

[C54] H. OUARIT, L. LEFEVRE, D. GEORGES, Robust optimal control of one-reach open

[C55] H. OUARIT, L. LEFEVRE, D. GEORGES, O. BEGOVICH, A way to deal with nonlinear
boundary conditions in open-channel optimal control problems, IEEE Conference on Decision and
Control 03, Maui, USA, december 2003.

[C56] B. MAX, D. KOENIG, D. GEORGES, Robust pole-clustering for descriptor systems: a strict

[C57] B. MAX, D. KOENIG, D. GEORGES, Robust fault diagnosis for linear descriptor systems
using Proportional Integral Observers, ECC’03 - European Control Conference, Cambridge, UK,
september 2003.

[C58] B. MAX, D. KOENIG, D. GEORGES, Robust fault diagnosis for descriptor systems: a

[C59] E. WITRANT, C. CANUDAS DE WIT, D. GEORGES, Output Stabilization via two-channel
transmission communications. IFAC Workshop on Time-Delay Systems, Rocquencourt, France, sept.
2003.

[C60] B. MARX, D. KOENIG, D. GEORGES, Optimal sensor and actuator location for descriptor
systems using generalized graminans and balanced realizations, IEEE American Control Conference,

[C74] E. WITRANT, D. GEORGES, C. CANUDAS DE WIT, Optimal Control Design for the

[C87] Z. BENAYACHE, G. BESANCON, D. GEORGES, A New Nonlinear Control Methodology for Irrigation Canals Based on a Delayed Input Model, *IFAC World Congress*, Korea, 2008, [hal-

[C89] D. GEORGES, A fast method for the solution of some tomography problems, 47th IEEE Conf Decision and Control - 47th IEEE Conference on Decision and Control, Mexico, 2008, [hal-00370934].

[C90] D. GEORGES, Une méthode de complexité réduite pour la résolution rapide de problèmes de tomographie, Conférence Internationale Francophone d'Automatique, CIFA 08 - (2008), Bucarest, Romania.

[C107] D. GEORGES, Boundary Control of some Hyperbolic PDE’s based on a Model Predictive Approach, Plenary Speaker at Thematic School of the GDRE ConEDP, "Control of PDE’s, interactions and application challenges”, November 5-9, 2012, Marseille, France.
