

Sixth International Symposium on Signal Processing and its Applications

ISSPA 2001

Kuala Lumpur, Malaysia
13-16 August 2001

**General Chair and
Steering Committee Chair**
B. Boashash
QUT, Australia

Technical Committee Chair
K. Abed-Meraim
ENST Paris, France
abed@tsi.enst.fr

Technical Committee
S. Anderson, Australia
Y. Attikouzel, Australia
E. Biglieri, Italy
J. Bohme, Germany
H. Cherifi, France
A. Cjchocki, Japan
T. Constantinides, UK
P. Duhamel, France
S. I. El-Khamy, Egypt
T. R. Fisher, USA
Y. Hua, Hong-Kong
M. Kaveh, USA
M. Lagunas, Spain
A. Mitiche, Canada
S. K. Mitra, USA
B. Ottersten, Sweden
C. Papadias, USA
E. J. Powers, USA
T. Pun, Switzerland
D. Slock, France
F. Vidal, Spain
L. Wong, Singapore
Z. Yusuf, Malaysia
D. Ziou, Canada
and others

Special Sessions
A. Beghdadi
Univ. Paris13, France

Tutorials
M. Deriche
QUT, Australia

Conf. Organisation Chair
S. H. Salleh
UTM, Malaysia

Conf. Org. Vice-Chairs
M. Khalid, (Advisory)
S. Amin, (Planning)
A.Z. Sha'ameri, (Resources)
UTM, Malaysia

Liaison Technical Program
S. A. R. Al-Attas
UTM, Malaysia

Publications
A. Yahya
UTM, Malaysia

Finances
K. Mohd Hani, Z. Aspar
UTM, Malaysia

Publicity
M-J. E. Salami
IIUM, Malaysia

Exhibits
Y. Mohammad
Ericsson, Malaysia

Call For Papers

ISSPA 2001 is the sixth in a series of successful international symposia focussing on the theory and applications of signal processing. For the last 15 years, it has provided a forum for engineers and scientists engaged in research and development to discuss common and disparate objectives and applications of Signal Processing. After considerable success in Australia, ISSPA is moving offshore.

The regular technical program will run for three days along with an exhibition of signal processing products. In addition, tutorial sessions will be held one day before the opening of the conference.

Papers are invited in, but not limited to, the following topics:

- | | |
|---|---|
| 1. Digital Filter Design & Structures | 11. Signal Processing for Communications |
| 1. Multirate Filtering & Wavelets | 11. Antennas for Mobile Communications |
| 1. Adaptive Signal Processing | 11. Spread Spectrum Communications |
| 1. Time-Frequency / Time-Scale Analysis | 11. Biomedical Signal Processing |
| 1. Higher Order Statistics | 11. Neural Network for Signal Processing |
| 1. Statistical Signal & Array Processing | 11. Industrial Signal Processing |
| 1. Radar & Sonar Processing | 11. Signal Processing Education |
| 1. Speech Processing & Recognition | 11. Multimedia Signal Processing |
| 1. Image & Multidimensional Signal Processing | 11. Security Signal Processing |
| 1. VLSI for Signal Processing | 11. Others (Optical Signal Processing, Aerospace Applications, etc.). |

Perspective authors are invited to submit full length (four page) papers for presentation in any of the areas listed above (*show area in your submission*). We also encourage the submission of proposal for tutorials and sessions on special topics. Deadlines for submissions and registrations are shown below. Details on the submission process are available on the main conference website

<http://www.sprc.qut.edu.au/isspa2001.html>

Accepted papers will be published in a hard copy volume by IEEE and distributed at the symposium. Technical inquiries should be directed to the technical chairman.

Secretariat and Local arrangements:

DSP Lab, Dept. of Microelectronics and Computer Engineering,
Universiti Teknologi Malaysia, 81310 UTM-Skudai, Johor, Malaysia.
Tel: (60) 7 - 550 5216 / 5089
Fax: (60) 7 - 556 6272
e-mail: isspa2001@suria.fke.utm.my

Schedule:

Full paper proposal due: 15 February 2001
Notification of acceptance: 30 April 2001
Advance registration before: 15 July 2001
